Despite the unavailability of any feature directly supporting Apple pay transfer to the Cash app, there is an option to transfer the funds through **'Apple Pay Instant Fund'**.

You will first have to move your funds in order to transfer the Apple money to the Cash app. Following are the steps to be followed.

**On iPhone:** Open the wallet app. Go to the Apple Cash card and tap on the more button.

**On iPad:** Go to the **Settings menu** and select **Wallet** then **Apple Pay**. Choose an **Apple cash card**.

- Select the option to transfer to the bank
- Enter the desired amount and click on the **'Next'** button
- Select the transfer option either instant transfer or 1-3 business days. *(Please note that instant money transfer charge fees)*
- You need to confirm the transfer using the face ID, Touch ID, or passcode.
- Wait for the time until the transfer is complete

Soon after the transfer takes place, you can use the funds to move money to your Cash app wallet.

**Here's how you can transfer from Apple Pay to Cash App:**

- Launch the **Apple Pay** and go to the card info section.
- Tap on the Apple Cash card
- Tap option **more**
